OUR LADY OF HOPE

EXTENDED DAY PROGRAM

The purpose of the extended day program is to promote the gospel ministry of Our Lady of Hope Catholic School community and to support school parents by providing quality and consistent care and supervision beyond normal school hours. Emphasis is on providing a secure and loving environment that is consistent with the school and home environments and conducive to creative play, respectful interaction among the children, and independent study and rest.

Our program seeks to develop the social, intellectual, emotional, physical, and spiritual well-being of the children entrusted to our care. We do this by providing an administration strong in leadership, ably assisted by a staff of caring individuals.

Complete and return this with your application **only** if you plan to use an extended day program.
