

LET YOUR CHILD DISCOVER THE WORLD OF MECHANICS

- Learn key principles of engineering and physics
- Develop critical problem-solving and creative thinking skills.
- Engage in fun, hands-on learning with building bricks.
- Nurture a love for science and discovery.

BRICKS CHALLENGE PROGRAM

Introducing the **Bricks Challenge** Program, perfect for imaginative minds grades K-6. Through fun, hands-on projects, children discover the exciting world of mechanics and engineering. They'll learn key principles, such as the workings of gears, transmissions, and forces, while building models from amusement park rides to robots. We make complex subjects accessible, and nurture creativity, preparing your child for a future filled with scientific discovery.
